Program overview

Program description

The Entergy Arkansas Manufactured Homes Program provides cost-effective energy efficiency measures to Entergy Arkansas customers in the manufactured homes market throughout the Entergy Arkansas electric service territory. Through the program, participating trade allies will perform energy-efficient upgrades at eligible manufactured homes. The upgrades include air conditioning tune-ups, duct sealing and air sealing improvements. The trade ally may also provide low-flow showerheads and aerators, and advanced power strips for homes that qualify. Program staff and trade allies will work to identify and suggest other areas for improvements and opportunities for participation in additional Entergy Arkansas energy efficiency programs.

Program objectives

The primary objectives of the program are to install at no-additional-cost energy efficiency measures and offer incentives for more in-depth energy efficiency measures in manufactured homes receiving electric service from Entergy Arkansas, and to help community owners and residents reduce energy usage. In addition, the program will provide information to owners and residents about energy consumption and how to use energy wisely.

Program participation

STEP 1: Find authorized trade allies that work in your area by visiting EntergyARTradeAlly.com. If you have any questions, please call us at **866-627-9177** or email us at ManufacturedEAL@icf.com.

STEP 2: Schedule an appointment to have a trade ally visit your manufactured home to install the program measures and conduct your energy survey. An adult representative should plan to be present for the duration of the energy survey and product installation, which will take roughly two hours.

STEP 3: Sign the completed survey document and provide any comments or suggestions about the program.

Sightline Mobile (SLM) and Beacon audits

The home must have a working central heat and air system in order to qualify for the duct sealing, air sealing and A/C tune-up measures. If the home does not have a working central heat and air system, they are still eligible to receive SLM Audit with the direct installation of low-flow showerheads and aerators and advanced power strips. A home may only receive these direct installation measures once every 10 years.

SLM audit

During the SLM audit walk-through survey, trade allies will install energy-saving measures including advanced power strips, showerheads and kitchen/bath aerators. These measures can instantly

save energy and money when properly installed and used. These measures will be installed at no additional cost to the customer. A survey will provide insights into other ways to use energy wisely.

Beacon audit

The Beacon audit is a comprehensive evaluation on your home's energy use. This audit will provide recommendations on ways to save energy. During the Beacon audit, customers eligible for weatherization installation will start with a home inspection before work. A pre-blower door test must be performed to confirm the need for air sealing and a pre-duct blaster test must be performed to confirm the need for duct sealing. If the pre-testing confirms the need for either air sealing and/or duct sealing, the air sealing and duct sealing may be authorized. Post testing must be performed in the structure and/or the duct to confirm the air leakage reduction.

Program eligibility

Owners or renters (certifying required consent of the owner has been obtained) of manufactured homes located within the Entergy Arkansas electric service territory are eligible for the Entergy Arkansas Manufactured Homes Program.

There are no maximum or minimum limits to the size of a park or complex.

Funds are limited, and services are available to customers in Entergy Arkansas service territory on a first-come, first-served basis. For more information about other Entergy Arkansas programs, please visit entergysolutionsar.com.

Program benefits

Direct install measures

In this program, energy-efficient products are furnished and installed at no additional cost to Entergy Arkansas Manufactured Homes Program customers. The measures available for direct installation in eligible properties and locations are as follows:

- 1.5 gallons-per-minute showerheads and faucet aerators (when existing fixtures have flow rates of 2.0 gallons per minute or greater and where the water heater is powered by electricity).
- Advanced Power Strips for qualifying home entertainment systems.
- Entergy Arkansas customers with qualified air conditioning systems and Wi-Fi may sign up for the Smart Direct Load Control Pilot Program. Smart Thermostat eligibility is based upon the presence of continuous Wi-Fi internet and agreement to participate in summer demand response events. Additionally, the residence cannot be a current participant in the Summer Advantage Program.

Incentivized measures

Air conditioner/heat pump tune-up

Any Entergy Arkansas Manufactured Homes Program customers who have central air conditioning or heat pump systems on-site may qualify for an air conditioning/heat pump tune-up. Customers who have participated in the previous five years will not be eligible.

The Entergy Arkansas air conditioner/heat pump tune-up offering involves a special diagnostic and service procedure that not only ensures the system is operating at peak efficiency (and lowest operational cost) but also identifies any shortcomings that are keeping the system from doing so. After the tune-up is complete, it may be subject to a post-installation quality-assurance verification.

Duct sealing

Any Entergy Arkansas Manufactured Homes Program customer who uses a central duct system for heating and cooling the home may qualify for duct sealing based on the total system leakage. Duct sealing will consist of air leaks in the ductwork being reduced with the application of long-lasting materials. After the duct sealing is complete, it may be subject to a post-installation quality-assurance verification.

Air sealing

Any Entergy Arkansas Manufactured Homes Program customer who has substantial air leakage qualifies for air sealing. The air sealing consists of using industry-standard materials and methods to reduce air infiltration and exfiltration. After the air sealing is complete, it may be subject to a post-installation quality-assurance verification.

Smart thermostat

Entergy Arkansas customers with qualified air conditioning systems and Wi-Fi may sign up for the Smart Direct Load Control Program offering. Participating trade allies will assist customers to complete the application during the Home Energy Solutions visit. Smart thermostat eligibility is based upon presence of continuous Wi-Fi internet. Customers can also choose to participate in summer demand response events.

Program quality management

Post-verification

Completed projects are subject to a post-installation verification, selected on a random basis. At least, 10% of homes that participated in the program will be selected for the verification.

If a home has been selected for on-site post-verification, a program representative will contact the customer to ask about the installation and schedule a time to visit the property site.

Terms and conditions

These terms and conditions are only valid for service completed on or after Jan. 1, 2025. Only trade allies may submit applications for incentive consideration for the Manufactured Homes Program.

ENERGY AUDIT REPORT: The energy audit report provides the customer with a compiled review of energy-saving measures installed throughout the property, as well as recommendations related to energy efficiency programs available. Entergy Arkansas is not responsible for lost documentation.

ELIGIBILITY: Participants must be Entergy Arkansas electric utility customers with a working central air conditioner or heat pump. For homes without working central air conditioning, the home must have central electric heating. Funds are limited, and services are available to Entergy Arkansas electric customers on a first-come, first-served basis. In order for participants to qualify for measures such as Air Sealing, Duct Sealing and Air Conditioning/Heat Pump Tune-up incentives, the service must be performed by an Entergy Arkansas trade ally. For other Entergy Arkansas programs, please visit entergyarkansas.com.

APPROVAL AND VERIFICATION: Entergy Arkansas reserves the right to verify the delivery of services and to have reasonable access to the participant's residence to verify the performance of energy efficiency direct install measures and/or energy efficiency work. Prior to any payment of incentives, Entergy Arkansas reserves the right to verify sales transactions. The customer's trade ally will verify that the installed energy-saving measures meet all applicable building codes; zoning laws; local, state and federal requirements; and other relevant requirements. The customer's trade ally is responsible for any applicable permits as required by law. Outdoor temperatures and other weather conditions may affect this verification process. The participant acknowledges and agrees to participate if his/her home is selected for a quality-control post-installation verification by Entergy Arkansas or its program implementer ICF. No warranty is expressed or implied by this verification.

PAYMENT: Each measure may only receive one full incentive payment from Entergy Solutions within the life of the measure.

TAX LIABILITY: The participant is responsible for declaring and paying any and all applicable federal, state and local taxes that may be owed on any incentive. Entergy Arkansas will not be responsible for any tax liability that may be imposed on the customer as a result of the delivery of the energy efficiency measures. Please contact your tax professional for more information.

REMOVAL OF EQUIPMENT: The customer agrees, as a condition of participation in the program, to allow removal and disposal of the equipment being replaced by energy efficiency measures in accordance with all laws, rules and regulations. The customer agrees not to reinstall any newly installed equipment anywhere in Arkansas or transfer it to any other party for installation in Arkansas.

ENDORSEMENT: Entergy Arkansas does not endorse any particular manufacturer, product, system design, claim, trade ally or service in promoting this program.

INFORMATION RELEASE: The participant agrees that Entergy Arkansas may include participant's name, address, Entergy Arkansas account number, Entergy Arkansas services and resulting energy savings in reports or other documentation submitted to the program implementer on Entergy Arkansas' behalf and/or the Arkansas Public Service Commission. Entergy Arkansas will treat all other information gathered in evaluations as confidential, and the information in the reports shall be

in the aggregate, where practicable.

AUTHORIZATION AND RELEASE INFORMATION: Participant understands his/her name, photograph, or other recordation(s) of his/her image, likeness, or voice, and/or his/her testimonial and made on behalf of ICF or ICF clients may be used in connection with ICF's business, including without limitation with respect to publicizing and promoting the Entergy Solutions energy efficiency program. Participant authorizes ICF to use his/her name, photograph, or other recordation(s) of his/her image, likeness, or voice and any testimonial provided.

Participant hereby irrevocably authorizes ICF to copy, exhibit, publish or distribute the testimonial for purposes of publicizing the Entergy Solutions' energy efficiency programs or for any other lawful purpose. These statements may be used in printed publications, reports, multimedia presentations, on websites or in any other distribution media.

LIMITATION OF LIABILITY: ENTERGY ARKANSAS' AND PROGRAM IMPLEMENTER ICF'S LIABILITY IS LIMITED TO PAYING THE INCENTIVE SPECIFIED. IN NO EVENT WILL ENTERGY ARKANSAS OR ICF BE LIABLE WHETHER IN CONTRACT, TORT (INCLUDING NEGLIGENCE), STRICT LIABILITY, WARRANTY OR OTHERWISE FOR SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES CONNECTED WITH OR RESULTING FROM PARTICIPATION IN THE PROGRAM. ENTERGY ARKANSAS RESERVES THE RIGHT TO NOT PAY THIS INCENTIVE IF THE APPLICATION FORM AND ALL REQUIRED ADDITIONAL INFORMATION ARE NOT COMPLETE OR ACCURATE.

LIABILITY WAIVER: By executing an Enrollment Form, the customer voluntarily agrees not to hold Entergy Arkansas, ICF, its trade allies or any of their affiliates, directors, officers, employees, agents, or contractors liable for any illness or injury. Customer further agrees not to engage in any inappropriate actions or otherwise endanger the safety or health of same.

WARRANTIES: Entergy Arkansas and ICF do not warrant the proper completion of work or performance of installed or serviced equipment, expressly or implicitly. Entergy Arkansas and ICF do not endorse, guarantee or warrant any particular manufacturer or product, and Entergy Arkansas and ICF provide no warranties, expressed or implied, for any products or services. Entergy Arkansas and ICF make no warranties of any kind, whether statutory, expressed or implied, including without limitations, warranties of merchantability or fitness for a particular purpose regarding energy efficiency measures. Entergy Arkansas and ICF make no guarantee of energy-saving results by receiving measure installation. The customer acknowledges that neither Entergy Arkansas nor ICF nor any of its consultants are responsible for ensuring the design, engineering or installation of the measures is proper or complies with any particular laws (including patent laws), codes or industry standards. Customers should contact their independent contractors for details regarding equipment performance and warranties.

PROPERTY RIGHTS: The participant represents that he/she has the right to complete and/or install the energy-saving equipment on the property on which the equipment is completed and/or installed and that any necessary landlord's or tenant's consent, as the case may be, has been obtained.

RENTER'S CERTIFICATION: Renter certifies that he/she has received consent from the landlord or homeowner for receipt of the energy audit and associated direct installation of energy efficient measures.

CUSTOMER'S CERTIFICATION: Property manager/owner certifies that he/she has contracted for

the received service(s) listed on the application at the defined location. Property manager/owner agrees that all information is true and that he/she has conformed to all program and equipment requirements listed.

RIGHT TO REFUSE: The Entergy Arkansas trade ally has the right to refuse service or end the delivery when confronted by a customer acting inappropriately or when facing an unsafe situation. “Inappropriate” includes but is not limited to the following: unreasonable demands for service, personally threatening or offensive language, threatening or erratic behavior or failure to comply with Arkansas Department of Health and/or any applicable health and safety recommendations. Authorized trade ally reserves the right to exclude any premises, or vicinity therein, deemed potentially unsafe or harmful.

TERMINATION OF SERVICE: Either party may terminate this agreement upon 30 days’ advance written notice. The trade ally shall be reimbursed for all services properly performed and approved up to the date of termination.

CUSTOMER COMMUNICATION: Participant agrees that Entergy Arkansas or Entergy Arkansas’ program implementer may contact participant via mail, phone, text message or email in connection with the program, including quality assurance communication.

AUTHORIZATION, PROGRAM CHANGES, SUSPENSION OR CANCELLATION:

Entergy Arkansas may change the program requirements, incentives, or terms and conditions, including suspending acceptance of applications or terminating the program, at any time without notice.

MISCELLANEOUS: These terms and conditions constitute the agreement between the parties and supersede all other communications and representations. By executing an Enrollment Form, the customer agrees to be bound by these terms and conditions.

PRIVACY POLICY: You may view Entergy’s privacy policy at entergy.com/privacy-policy/.

Disclaimer

Neither Entergy Arkansas nor ICF makes any guarantee or any other representation or warranty, expressed or implied, as to the quality or effectiveness of any product(s) provided or work(s) performed through this program.

Energy efficiency gains are subject to a number of variable conditions and circumstances. While it is the intent of the program to achieve energy efficiencies, neither Entergy Arkansas nor ICF guarantees or warrants that any specific energy efficiency gains will be achieved for a particular customer participating in the program.
